Summary

I am B.Tech Computer Science and Engineering student with knowledge of Python, HTML, Machine Learning, Artificial Neural Networks, and MS Excel. Developed a Student Phone Addiction Prediction project using Python, TensorFlow/Keras, and Google Colab. Completed courses in Python, Artificial Intelligence, and Microsoft Excel. A motivated fresher with good communication and problem-solving skills.

Skills

- Programming Languages: C++, JavaScript, Python
- Data Structures & Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues
- Web Development: HTML, CSS,
- Databases: MySQL Machine Learning (Basic): Pandas
- Tools & Platforms: Git, GitHub, VS Code

Education

- | | |
|--|-------------|
| • Brainware Univerity B.Tech in Computer Science and Engineering CGPA: 7.0/10 | 2023 – 2027 |
| • Vikram Branch Vidyalaya- 55% 12 th (Senior Secondary Examination) | 2023 |
| • Fort Gloster Hindi School- 79% 10 th (Secondary Examination) | 2021 |

Internship Experience

- **IBM Internship Program — Intern**

College-Facilitated

- Worked on a machine-learning project for student phone addiction prediction.
- Performed data preprocessing and feature engineering.
- Implemented an ANN model using TensorFlow/Keras.
- Trained and evaluated the model.
- Achieved approximately 96% test accuracy.

PROJECT

- **Student Phone Addiction Prediction : Python | pandas | TensorFlow | Keras | Google Colab**
Developed an ANN-based machine learning model to predict student phone addiction level.
Performed data preprocessing, label encoding, feature scaling, and model training.
Achieved approximately 96% test accuracy

Courses & Certificates

- Python – Cursa
- Introduction to Artificial Intelligence – Simplilearn | Skillup
- Introduction to Microsoft Excel – Simplilearn | Skillup & Microsoft

Languages

English – Conversational Proficiency | **Hindi** - Native Proficiency | **Bengali** - Conversational Proficiency
